

**TABLE 7B. Horsepower of Power Equipment Used, by Geographic Areas and Type of Operation: 1963 and 1954**

Geographic area	Aggregate horsepower per production worker		Aggregate horsepower (prime movers and electric motors driven by purchased)	1963 (1,000 horsepower)						
				Prime movers		Electric motors				
	1963	1954		Total	Highway type	All other equipment		Total	Driven by purchased energy	Driven by energy generated at same establishment
Driving generators	Not driving generators

(Z) = Statistical error. (X) = Available.

3. Includes figures for nonproducing establishments. For natural gasoline, see also footnote 3.

Figures for crude oil and condensate plants are included with those for natural gasoline plants. For natural gasoline, see also footnote 3.

Figures for fractionating plants are included with those for natural gasoline plants.
